

Ways To Shift Map Origin

Software	Command	Notes
ChimeraX	volume #1 origin 0,0,0	#can also use the resampling option if a centered map is available
EMAN2	python from EMAN2 import * foo=EMData('map_to_load.mrc') foo['origin_x']=0 foo['origin_y']=0 foo['origin_z']=0 foo.write_image('map_cent.mrc')	#invoke python interpreter #import EMAN2 module #load map to be shifted #shift the map origins along x, y and z #write out new map
PyEM	map.py --origin x,y,z map.mrc map_cent.mrc	#may need to include --apix value
PHENIX	phenix.map_box J61_007_volume_map.mrc keep_map_size=True prefix=origin_shifted output_origin_grid_units=0,0,0	#output map = origin_shifted.ccp4
CCPEM	ccpem-python /Users/porta031/ccpem-20221102/lib/py2/ccpem/src/ccpem _core/map_tools/TEMPy/map_preprocess.pyc -m /Users/porta031/hyunwook/J61_007 _volume_map.mrc -l shift_origin - ori 0.0 0.0 0.0	#can run from command line or from the CCPEM 'MapProcess' graphical interface
